

Simpson (York) Ltd, Clarification on Sustainable Initiative within our Environmental Accreditation and Policy

Inherent in our Environmental Policy and Scope document (BM02) is recognition of the contribution that we can make to Sustainable Development by the way we conduct our own business and how we influence others.

By continuing to roll out the company's certified Environmental Management System to embrace a broader Sustainability Management System we will

1. Engage with key stakeholders internally and externally to identify, understand and encourage involvement in sustainability initiatives.
 2. Endeavour to enable clients to be informed of the possibilities for increasing the sustainability of their operations and projects.
 3. Encourage the practical purchasing of goods and services in accordance with sustainable development principles and use for example use timber and timber products from recognised managed sustainable sources or from re-used or recycled timber.
- Design for minimum waste
 - Lean construction
 - Minimising energy in construction & use
 - Prevention of pollution
 - Preservation & enhancement of biodiversity
 - Conservation of water resources
 - Respect for people & local environment

We are committed to reducing our environmental impacts and to encourage sustainable development and it is Simpson (York) Ltd's aim to effectively Conduct our business ethically and with integrity to contribute to the social and environmental wellbeing of the communities within which it operates and those of its clients and suppliers.

Signed: 

RC GATENBY
CHAIRMAN & CHIEF EXECUTIVE
